Belgian Genetic Tests database

ANALYTE:
HR

NAME:	HR lysine demethylase and nuclear receptor corepressor
SYMBOL:	HR
VERSION OF ORPHANET:	2023-06-22 14:14:43
SYNONYMS:	AU
XREF(S):	Orphanet Reactome Ensembl Genatlas HGNC OMIM SwissProt
CREATED:	13 May 2019 - 01:01
CHANGED:	22 Jun 2023 - 16:14

RELATED CONTENT

Related Genetic Tests

- Congenital malformation (gene panel - 1721 genes)
- Dermatogenetic panel, severe, rare and hereditary genodermatoses (gene panel - 394 genes)
- Intellectual disability (virtual gene panel)
- Skin disorders (gene panel)

Related Diseases

- Alopecia universalis
- Atrichia with papular lesions
- Marie Unna hereditary hypotrichosis

Related Gene Panels

- Congenital malformation (1721 genes) - ULB
- Dermatogenetic / severe, rare and hereditary genodermatoses (394 genes) - ULB
- Intellectual disability (gene panel)
- Skin disorders - UGent
