
DISEASE:
Brachydactyly-syndactyly, Zhao type

NAME:	Brachydactyly-syndactyly, Zhao type
DESCRIPTION:	Brachydactyly-syndactyly, Zhao type is a recently described syndrome associating a brachydactyly type A4 (short middle phalanges of the 2nd and 5th fingers and absence of middle phalanges of the 2nd to 5th toes) and a syndactyly of the 2nd and 3rd toes. Metacarpals and metatarsals anomalies are common.
ORPHACODE:	93409
